Forecast for Tuesday 24 May 2022

Weather: Dry and bright in the early morning with cloud increasing as few light showers develop before midday, becoming drier and brighter from late afternoon with sunny periods expected by evening. Cloud will however thicken from late evening with some rain moving in after midnight.

Chance of cloud-free hill tops above 800m: 60% increasing to 90%, most low cloud will lift above the summits during the morning, a few patches forming in any heavier showers. Further low cloud will develop from late Tuesday night.

Low cloud and visibility: Scattered low cloud will affect western summits but this will soon lift and clear, leaving very good visibility for all the fells.

Meteorologist's View

Feeling quite cool on the summits with fresh winds.

Forecast for Wednesday 25 May 2022

Weather: Early widespread and locally heavy rain will be accompanied by strong and gusty winds. This rain will turn showery from mid-morning when a few bright or sunny spells forming between showers. The showers will clear from late afternoon, leaving the evening mainly dry with sunny periods.

Maximum wind: Southwesterly 20-25mph soon increasing westerly 25-20mph gusts 45mph before easing 15-20mph from late evening.

Chance of cloud-free hill tops above 800m: 20% increasing 60% from late morning as extensive early cloud begins to break and lift above the summits.

Low cloud and visibility: Extensive low cloud will affect most summits in the early morning, this will break a little and lift during the morning, giving a very good visibility for most of the fells from late morning.

Temperature: **Valleys:** Plus 9 rising to 14 Celsius.
At 800m: Plus 2 rising to 6 Celsius.
Freezing level: Above all summits.
